The dissertation work of the doctoral student of KazNITU named after K. I. Satpayev Shaldarbekov K. B. is devoted to the problems of development and scientific substantiation of theoretical and methodological conditions for improving the mechanism for managing regional projects. The paper deals with questions on determining the importance and prerequisites for the formation of project management mechanisms at the regional level. The doctoral student studied the features of the formation of the mechanism of project management of regional projects on the example of the Zhambyl region.

A scheme of a mechanism for managing regional projects is proposed, which allows taking into account the goals and priorities of the region's development.

Scientific research on the topic of the dissertation focuses on the study of the theory and methodology of managing regional projects and focuses on individual elements of the management mechanism. At the same time, little attention is paid to the study of issues related to the creation of an integrated mechanism for managing regional projects.

In this regard, proposals for improving the mechanism of project management at the regional level determine the relevance of this study.

Connection of the topics of dissertations with the directions of development of science, which are formed by the Higher Scientific and Technical Commission under the Government of the Republic of Kazakhstan in accordance with paragraph 3 of Article 18 of the Law "On Science" and (or) state programs;

The problems considered in the dissertation work are aimed at improving the mechanism for managing regional projects. Today, the development of any region provides for the implementation of various regional projects. In accordance with this

territorial aspect of economic development, priority attention is currently given to program documents of the Republic of Kazakhstan. In particular, in order to develop the regions in the Republic of Kazakhstan, the "State Program for the Development of Regions for 2020-2025" and the "Program of Industrial and Innovative Development of the Republic of Kazakhstan" are being implemented. Dissertation of Shaldarbekov K.B. fully connected with the above-mentioned state programs.

Analysis of the level of implementation of the results of dissertations in practice. According to the results of the dissertation research Shaldarbekov K.B. 9 scientific articles published. Of these, 2 articles were published in a journal included in the international Scopus database, 4 articles in journals recommended by the Control Committee of Education and Science of the Ministry of Education and Science of the Republic of Kazakhstan, 2 articles in scientific and practical conferences abroad and 2 articles at international scientific conferences.
