Minutes No. 2 dated November 29, 2025.

Passport of educational program

General information

№	Field name	Comments
1	Code and classification of the field of education	8D07 Engineering, manufacturing and construction industries
2	Code and classification of training directions	8D071 Engineering and Engineering affairs
3	Educational program group	D210 Transmission System and Infrastructure
4	Educational program name	8D07123 Sustainable Development of Transport Infrastructure
5	Short description of educational program	The educational program is aimed at training highly qualified research and managerial personnel in the field of transport infrastructure. It develops competencies in scientific research, digital and innovative technologies, modelling, diagnostics, project management, and the assessment of reliability, risks, and sustainable development. Graduates are capable of generating new knowledge and methods, developing and implementing innovative solutions, managing research projects, and assessing their long-term impact on the transport system, society, and the environment.
6	Purpose of EP	Training of professional personnel of the highest category, capable of developing and promptly managing projects in the field of sustainable development of land transport infrastructure.
7	Type of EP	Innovative EP
8	The level based on NQF	8
9	The level based on SQF	8
10	Distinctive features of EP	None
11	Education form	Full-time study
12	Period of training	3 years
13	Amount of credits	180
14	Languages of instruction	Kazakh, Russian, English
17	Academic degree awarded	Doctor of Industry
16	Developer(s) and authors	Kamzanov N.S., Abdullayev S.S., Tokmurzina-Kobernyak N.A., Dzholdasova K.K.
